

A group of children are playing in a circle on a sandy ground in a village. They are holding hands and smiling. In the background, there are several traditional huts with thatched roofs made of dried grass or straw. The children are wearing colorful clothing, including striped shirts and skirts. The scene is bright and sunny, with shadows cast on the ground.

The Selection Committee will use the criteria below to determine the events to include in the official festival programme.

- + One World Festival events must be in keeping with the vision, mission and aims of the festival. Events should aim to increase awareness of the Global South, promote understanding of issues that affect the lives of the poorest people and inspire action in our communities towards a just, peaceful and sustainable world.
- + Events should aim to give a voice to people in or from the Global South, challenge negative stereotypes, and actively promote gender equality in terms of representation on panels, line-ups and messaging.
- + Events should be held in wheelchair accessible venues. Organisers must confirm they have sufficient public liability insurance for the event and should carry out a full risk assessment. CADA will not be held responsible for any accident, loss or injury arising from an event.
- + Events must not promote a political party organisation or other public campaign, which the festival committee has not approved.
- + Organisers may use their own branding at events but One World Festival branding and promotional materials must be given equal publicity at events.
- + Fundraising events where a premium ticket price is charged, or high value donations solicited (e.g. a Gala Dinner), or participants have to raise sponsorship to take part in an event, will not be included in the festival except by prior agreement of the festival committee. However, for events where a performer or speaker donates their time and standard ticket prices are charged (where appropriate), any net contribution raised may be retained by the organisation running the event. Where voluntary donations are requested at an event, this must be the basis that it is primarily to contribute to the cost of the event.
